DETAILED ACTION

Election/Restrictions

Applicant's election of group V, claims 20 and 21 drawn to antibody to pp32r1 protein in Paper No. 17 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Objections

Claim 21 is objected to because of the following informalities: the claim has not been amended to reflect the election. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 recites "specifically binds to a polypeptide consisting the sequence of pp32r1" but it is not clear what the metes and bounds are. The specification at Fig. 4 says SEQ ID NO:4 is pp32r1. Does the limitation exclude any antibody that does not bind to SEQ ID NO:4? Is an antibody capable of binding a protein having identical amino acid with instant SEQ ID NO:4 except Arginine at position 234 of instant SEQ ID NO:4 within metes and bounds of the antibody claimed in the instant claim?

Allowable Subject Matter

Art Unit: 1642

SEQ ID NO:4 is free of art, therefore antibody capable of binding SEQ ID NO:4 is
also free of art.

but not pp 32
